RSVP required by February 8, 2017

CITY SIDEWALK REPAIR PROGRAM

Last year, the City of Los Angeles formalized a program to inspect and repair the City's 7,200 miles of sidewalks. This \$1.4 billion, 30-year effort is the result of a settlement by the City of an Americans with Disabilities Act lawsuit. Estimates suggest that more than half of the City's sidewalks are in need of repair.

Join CCA and key City officials to learn about the repair and release program that will turn responsibility for upkeep over to property owners once the City has made initial repairs. We will also be discussing the future liability of property owners and what happens if their sidewalks do not need repair and how the City will decide which sidewalks will be repaired soonest. And get information about how property owners may undertake the repairs themselves and be compensated by the City.

Special Guests: Greg Good, Office of Mayor Eric Garcetti; Gary Lee Moore, Bureau of Engineering

SPRING & MAIN STREET RECONFIGURATION

As part of on-going streetscape improvements, the Los Angeles Department of Transportation is planning to reconfigure portions of Main and Spring Streets to improve safety and comfort for people walking and bicycling, as well as enhanced bus operations. Come and learn about this and other future bike lane work around Downtown.

Special Guests: Valerie Watson and Robert Sanchez, Los Angeles Department of Transportation; Ari Simon, Office of Councilmember Jose Huizar

(Open to Executive, Business Advocacy and Premier Level Members Only)
